

CASE Space Camp Expedition December 2018

Tēnā Koutou,

I wanted to say a big thank you to Te Runanga A Iwi O Ngapuhi for approving the discretionary funding that supported me to attend Case junior space school. In December 2018 I spent two weeks in America, during this time I went to Houston, Texas and Huntsville, Alabama. I experienced so many amazing places in America such as the Houston health museum, NASA Johnson space center, Huntsville space and rocket center and the DeBakey Cell lab. I have grown and learnt so much and my future is so much brighter. I am so incredibly privileged and grateful that I got this once in a lifetime opportunity. This trip made me think about the world in different ways and gave me a glimpse into the outside world. I will be forever grateful to Ngapuhi for giving me a discretionary fund so I could attend this once in a lifetime trip.

Ngā Mihi
